

# Audicom AC9801

Electrolyte Analyzer

# ELECTROLYTE ANALYZER

## Semi-automatic Electroly Analyzer

1. Long-life and Maintenance-free Electrode
2. Full automatic intelligent system
3. Advanced unique design for the fluid route
4. Batch, rapid Sampler system
5. Three measures to ensure the accuracy
6. Friendly interface and Comprehensive data management
7. 10,000 users worldwide
8. Providing comprehensive after-sales service solutions

Reliable  
long-life  
Electrode

Automatic &  
intelligent  
Operation

Advanced & Unique  
Flow-circuit Design

Overall Data  
Management

## Technical Specifications

Model	AC9801
Measuring item	K <sup>+</sup> , Na <sup>+</sup> , Cl <sup>-</sup> , iCa <sup>2+</sup> , ph
Calculating item	nCa, TCa
Sampler method	Manual
Measuring time	25s
Full time	40s
Sample size	100μl
Data storage	10000
Communication interface	232 interface
Display	240×64 LCD Liquid crystal display, backlight
Printer	58mm thermal printer
Air bubble test	Yes
Alam for waste liquid overflow	Yes
Alam for standard liquid level	Yes
standard liquid level indicator lamp	Yes
sample liquid level indicator lamp	Yes
Power supply	~220V±22V 50HZ±1HZ 85VA
Product size	408mm×390mm×230mm
Product weight	6kg
Measuring method	ISE, TCO <sub>2</sub> adopts pressure-measuring method
Working condition	Temperature: 5°C-40°C, Relative humidity ≤85%
